

Carrier Reports Third Quarter 2020 Results

October 29, 2020

Raises Full-Year Outlook for Sales, Adj. Operating Profit and Free Cash Flow

- Third quarter sales of \$5 billion, up 4% from the prior year
 - GAAP EPS of \$0.84 and adjusted EPS of \$0.67
- Increases three-year savings target by \$100M and the Carrier 600 program becomes Carrier 700
- Plans to reduce debt by \$1.5 billion in the fourth quarter of 2020, supported by stronger than expected free cash flow

PALM BEACH GARDENS, Fla., Oct. 29, 2020 /PRNewswire/ -- <u>Carrier Global Corporation</u> (NYSE: CARR) today reported financial results for the third quarter of 2020. Carrier is a leading global provider of healthy, safe and sustainable building and cold chain solutions.

"Carrier delivered solid third quarter results driven by very strong North American residential HVAC performance and continued traction on our growth and cost initiatives," said Carrier President & CEO Dave Gitlin. "Carrier is well-positioned across key trends in healthy, safe and sustainable building and cold chain solutions, and we continue to lean into the opportunity to be the leading one-stop shop."

Carrier's third quarter sales of \$5 billion were up 4% compared to the prior year, including 3% organic sales growth. The growth was largely driven by record demand in North America residential HVAC, which was up 46% compared to the prior year, and an improved economic climate. Most businesses saw sequential improvement from the second to the third quarter. GAAP operating profit in the quarter of \$1.08 billion was up 72% and adjusted operating profit of \$867 million was up 6%.

These results benefited from volume growth in the HVAC business, aggressive cost containment, including accelerated savings under Carrier's three-year run-rate savings target, which has increased from \$600 million to \$700 million under the renamed Carrier 700 program.

GAAP EPS of \$0.84 was helped by the gain on the sale of shares held as an investment. Adjusted EPS was \$0.67 excluding net nonrecurring and restructuring charges. Net income in the quarter was \$741 million, and adjusted net income was \$590 million. Net cash flows provided by operating activities were \$937 million and capital expenditures were \$57 million, resulting in free cash flow of \$880 million, representing 119% of net income.

Updated Full-Year 2020 Outlook*

Carrier is raising its full-year 2020 outlook and now anticipates:

- Sales of approximately \$17.3 billion, up from a range of \$15.5 to \$17.0 billion;
- Adjusted operating profit of approximately \$2.2 billion, up from a range of \$1.8 to \$2.0 billion; and
- Free cash flow of approximately \$1.5 billion, up from at least \$1.1 billion. Carrier's stronger than expected free cash flow will support plans to reduce the Company's debt by \$1.5 billion in the fourth quarter 2020.

*Note: When we provide expectations for adjusted operating profit and free cash flow on a forward-looking basis, a reconciliation of the differences between the non-GAAP expectations and the corresponding GAAP measures generally is not available without unreasonable effort. See "Use and Definitions of Non-GAAP Financial Measures" below for additional information.

Conference Call

Carrier will host a webcast of its earnings conference call today, Thursday, October 29, 2020, at 9:00 a.m. ET. To access the webcast, visit the Events & Presentations section of the Carrier Investor Relations site at <u>ir.carrier.com/news-and-events/events-and-presentations</u> or to listen to the earnings call by phone, dial (877) 742-9091.

About Carrier

As the leading global provider of healthy, safe and sustainable building and cold chain solutions, Carrier Global Corporation is committed to making the world safer, more sustainable and comfortable for generations to come. From the beginning, we've led in inventing new technologies and entirely new industries. Today, we continue to lead because we have a world-class, diverse workforce that puts the customer at the center of everything we do. For more information, visit www.corporate.carrier.com or follow Carrier on social media at @Carrier.

Use and Definitions of Non-GAAP Financial Measures

Carrier Global Corporation ("Carrier") reports its financial results in accordance with accounting principles generally accepted in the United States ("GAAP").

We supplement the reporting of our financial information determined under GAAP with certain non-GAAP financial information. The non-GAAP information presented provides investors with additional useful information, but should not be considered in isolation or as substitutes for the related GAAP measures. Moreover, other companies may define non-GAAP measures differently, which limits the usefulness of these measures for

comparisons with such other companies. We encourage investors to review our financial statements and publicly-filed reports in their entirety and not to rely on any single financial measure.

Organic sales, adjusted operating profit, adjusted net income, adjusted earnings per share ("EPS"), and the adjusted effective tax rate are non-GAAP financial measures. Organic sales represents consolidated net sales (a GAAP measure), excluding the impact of foreign currency translation, acquisitions and divestitures completed in the preceding twelve months and other significant items of a non-recurring and/or nonoperational nature (hereinafter referred to as "other significant items"). Adjusted operating profit represents operating profit (a GAAP measure), excluding restructuring costs and other significant items. Adjusted net income represents net income attributable to common shareowners (a GAAP measure), excluding restructuring costs and other significant items. Adjusted EPS represents diluted earnings per share (a GAAP measure), excluding restructuring costs and other significant items. The adjusted effective tax rate represents the effective tax rate (a GAAP measure), excluding restructuring costs and other significant items. For the business segments, when applicable, adjustments of operating profit and margins represent operating profit, excluding restructuring and other significant items.

GAAP financial results include the impact of changes in foreign currency exchange rates (AFX). We use the non-GAAP measure "at constant currency" or "CFX" to show changes in our financial results without giving effect to period-to-period currency fluctuations. Under GAAP, income statement results are translated in U.S. dollars at the average exchange rate for the period presented. Management believes that the non-GAAP measures just mentioned are useful in providing period-to-period comparisons of the results of the Company's ongoing operational performance.

Free cash flow is a non-GAAP financial measure that represents net cash flows provided by operating activities (a GAAP measure) less capital expenditures. Management believes free cash flow is a useful measure of liquidity and an additional basis for assessing Carrier's ability to fund its activities, including the financing of acquisitions, debt service, repurchases of Carrier's common stock and distribution of earnings to shareowners.

A reconciliation of the non-GAAP measures to the corresponding amounts prepared in accordance with GAAP appears in the tables in this Appendix. The tables provide additional information as to the items and amounts that have been excluded from the adjusted measures.

When we provide our expectations for adjusted EPS, adjusted operating profit, adjusted effective tax rate, organic sales and free cash flow on a forward-looking basis, a reconciliation of the differences between the non-GAAP expectations and the corresponding GAAP measures (expected diluted EPS, operating profit, the effective tax rate, sales and expected net cash flows provided by operating activities) generally is not available without unreasonable effort due to potentially high variability, complexity and low visibility as to the items that would be excluded from the GAAP measure in the relevant future period, such as unusual gains and losses, the ultimate outcome of pending litigation, fluctuations in foreign currency exchange rates, the impact and timing of potential acquisitions and divestitures, and other structural changes or their probable significance. The variability of the excluded items may have a significant, and potentially unpredictable, impact on our future GAAP results.

Cautionary Statement

This communication contains statements which, to the extent they are not statements of historical or present fact, constitute "forward-looking statements" under the securities laws. From time to time, oral or written forward-looking statements may also be included in other information released to the public. These forward-looking statements are intended to provide management's current expectations or plans for our future operating and financial performance, based on assumptions currently believed to be valid. Forward-looking statements can be identified by the use of words such as "believe," "expect," "expectations," "plans," "strategy," "prospects," "estimate," "project," "target," "anticipate," "will," "should," "see," "guidance," "outlook," "confident," "scenario" and other words of similar meaning in connection with a discussion of future operating or financial performance or the separation from United Technologies (the "Separation"). Forward-looking statements may include, among other things, statements relating to future sales, earnings, cash flow, results of operations, uses of cash, share repurchases, tax rates and other measures of financial performance or potential future plans, strategies or transactions of Carrier, the estimated costs associated with the Separation, Carrier's plans with respect to our indebtedness and other statements that are not historical facts. All forward-looking statements involve risks, uncertainties and other factors that may cause actual results to differ materially from those expressed or implied in the forward-looking statements. For those statements, we claim the protection of the safe harbor for forward-looking statements contained in the U.S. Private Securities Litigation Reform Act of 1995. Such risks, uncertainties and other factors include, without limitation: (1) the effect of economic conditions in the industries and markets in which Carrier and its businesses operate in the U.S. and globally and any changes therein, including financial market conditions, fluctuations in commodity prices, interest rates and foreign currency exchange rates, levels of end market demand in construction, the impact of weather conditions, pandemic health issues (including COVID-19 and its effects, among other things, on production and on global supply, demand, and distribution disruptions as the outbreak continues and results in an increasingly prolonged period of travel, commercial and/or other similar restrictions and limitations), natural disasters and the financial condition of our customers and suppliers; (2) challenges in the development, production, delivery, support, performance and realization of the anticipated benefits of advanced technologies and new products and services; (3) future levels of indebtedness, capital spending and research and development spending; (4) future availability of credit and factors that may affect such availability, including credit market conditions and Carrier's capital structure and credit ratings; (5) the timing and scope of future repurchases of Carrier's common stock, including market conditions and the level of other investing activities and uses of cash; (6) delays and disruption in the delivery of materials and services from suppliers; (7) cost reduction efforts and restructuring costs and savings and other consequences thereof; (8) new business and investment opportunities; (9) risks resulting from a less diversified business model and balance of operations across product lines, regions and industries due to the Separation; (10) the outcome of legal proceedings, investigations and other contingencies; (11) the impact of pension plan assumptions on future cash contributions and earnings; (12) the impact of the negotiation of collective bargaining agreements and labor disputes; (13) the effect of changes in political conditions in the U.S. and other countries in which Carrier and its businesses operate, including the effect of changes in U.S. trade policies or the United Kingdom's withdrawal from the European Union, on general market conditions, global trade policies and currency exchange rates in the near term and beyond; (14) the effect of changes in tax, environmental, regulatory (including among other things import/export) and other laws and regulations in the U.S. and other countries in which we and our businesses operate; (15) the ability of Carrier to retain and hire key personnel; (16) the scope, nature, impact or timing of acquisition and divestiture activity, including among other things integration of acquired businesses into existing businesses and realization of synergies and opportunities for growth and innovation and incurrence of related costs: (17) the expected benefits of the Separation: (18) a determination by the IRS and other tax authorities that the Distribution or certain related transactions should be treated as taxable transactions; (19) risks associated with indebtedness, including that incurred as a result of financing transactions undertaken in connection with the Separation, as well as our ability to reduce indebtedness and the timing thereof; (20) the risk that dis-synergy costs, costs of restructuring transactions and other costs incurred in connection with the Separation will exceed Carrier's estimates; and (21) the impact of the Separation on Carrier's business and Carrier's resources, systems, procedures and controls, diversion of management's attention and the impact on relationships with customers, suppliers, employees and other business counterparties.

The above list of factors is not exhaustive or necessarily in order of importance. For additional information on identifying factors that may cause actual results to vary materially from those stated in forward-looking statements, see Carrier's registration statement on Form 10 and the reports of Carrier on Forms, 10-Q and 8-K filed with or furnished to the SEC from time to time. Any forward-looking statement speaks only as of the date on which it is made, and Carrier assumes no obligation to update or revise such statement, whether as a result of new information, future events or otherwise, except as required by applicable law.

¹ On April 3, 2020, United Technologies Corporation, since renamed Raytheon Technologies Corporation ("UTC"), completed the spin-off of Carrier, one of UTC's reportable segments, into a separate publicly traded company (the "Separation"). The Separation was completed through a pro-rata distribution (the "Distribution") of all of the outstanding common stock of the Company to UTC shareowners who held shares of UTC common stock as of the close of business on March 19, 2020, the record date for the Distribution. Earnings per share for periods presented prior to the Separation were calculated using the number of shares that were distributed to UTC shareowners immediately following the Separation. For periods prior to the Separation it was assumed that there were no dilutive equity instruments as there were no equity awards in Carrier common stock outstanding prior to the Separation.

² Basic and diluted earnings per share for the three and nine months ended September 30, 2020 are calculated using the weighted-average number of common shares outstanding for the period beginning after April 3, 2020. Diluted earnings per share is computed by giving effect to all potentially dilutive stock awards that are outstanding.
