

Q4 2022 EARNINGS CONFERENCE CALL

February 7, 2023

Cautionary Statement

This communication contains statements which, to the extent they are not statements of historical or present fact, constitute "forward-looking statements" under the securities laws. These forward-looking statements are intended to provide management's current expectations or plans for Carrier's future operating and financial performance, based on assumptions currently believed to be valid. Forward-looking statements can be identified by the use of words such as "believe," "expect," "expectations," "plans," "strategy," "prospects," "estimate," "project," "target," "anticipate," "will," "should," "see," "guidance," "outlook," "confident," "scenario" and other words of similar meaning in connection with a discussion of future operating or financial performance. Forward-looking statements may include, among other things, statements relating to future sales, earnings, cash flow, results of operations, uses of cash, share repurchases, tax rates and other measures of financial performance or potential future plans, strategies or transactions of Carrier, Carrier's plans with respect to its indebtedness and other statements that are not historical facts. All forward-looking statements involve risks, uncertainties and other factors that may cause actual results to differ materially from those expressed or implied in the forward-looking statements. For additional information on identifying factors that may cause actual results to vary materially from those stated in forward-looking statements, see Carrier's reports on Forms 10-K, 10-Q and 8-K filed with or furnished to the U.S. Securities and Exchange Commission from time to time. Any forward-looking statement speaks only as of the date on which it is made, and Carrier assumes no obligation to update or revise such statement, whether as a result of new information, future events or otherwise, except as required by applicable law.

Q4 2022 Summary

Sales	\$5,105M <i>Organic* +5% Y/Y</i>
Adjusted Operating Profit*	\$516M
Adjusted EPS*	\$0.40
Free Cash Flow*	\$983M

Highlights
Double digit sales growth in commercial HVAC, light commercial HVAC, controls and global truck/trailer
Continued double-digit aftermarket growth
Container and commercial refrigeration sales decline
Price/cost positive
Backlog up MSD; commercial HVAC backlog** up ~35% Y/Y
Toshiba Carrier progressing well

Continued execution in dynamic environment

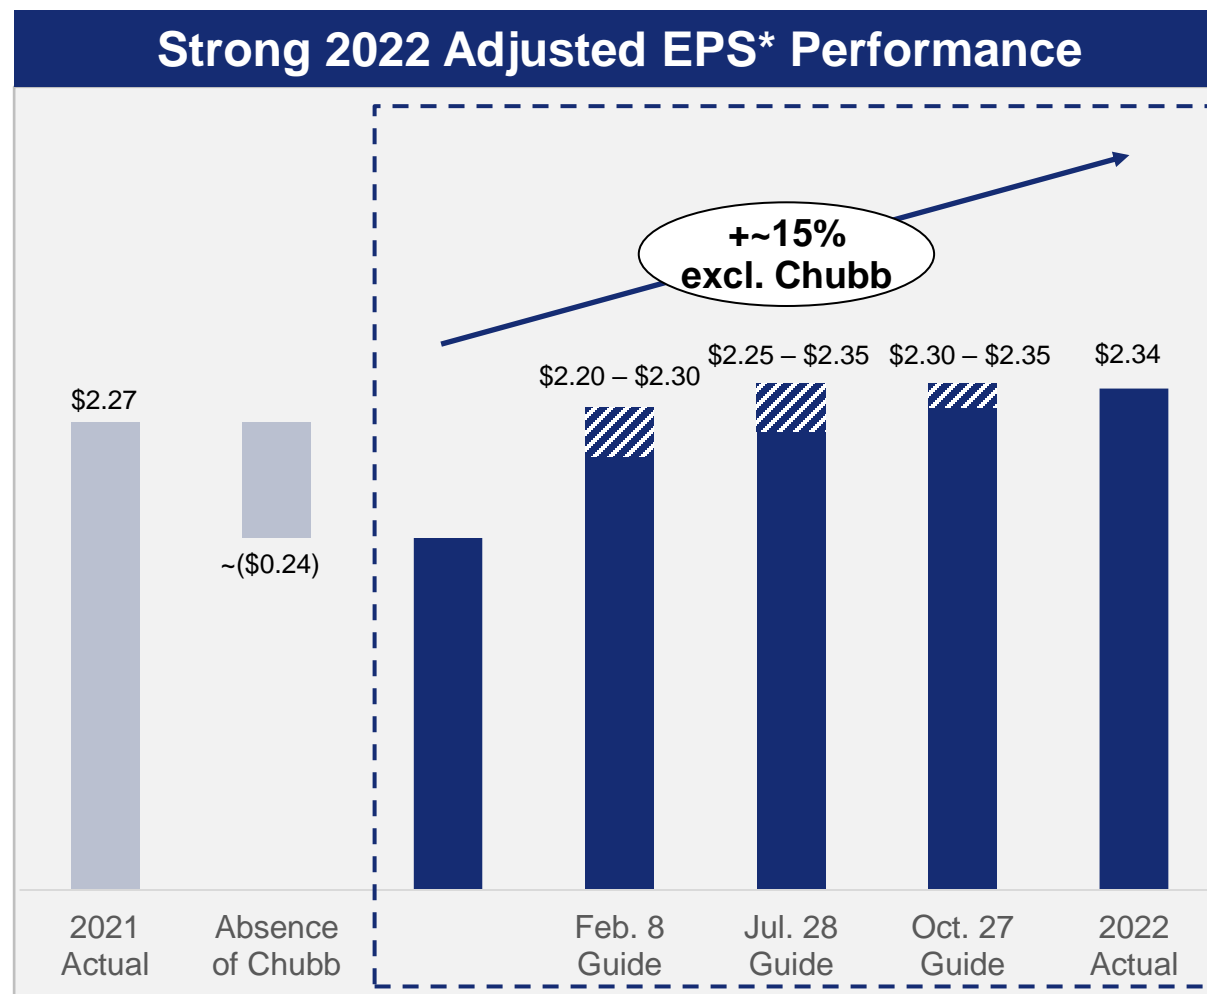

*See appendix for additional information regarding non-GAAP measures

**Excluding Noresco

2022 – Strong Financial Performance

Sustainability and Healthy Building Leadership

Sustainability Leadership

- NA residential heat pump sales up 35% in Q4
- European commercial heat pump sales up 30% in Q4
- Industry leading inverter technology
- Electric transport units operating in 15 countries

Healthy Building Leadership

- Orders up over 80% Y/Y in Q4
- Pipeline increased to over \$1B
- K-12 orders up ~35% Y/Y for FY22
- K-12 pipeline up ~60% Y/Y

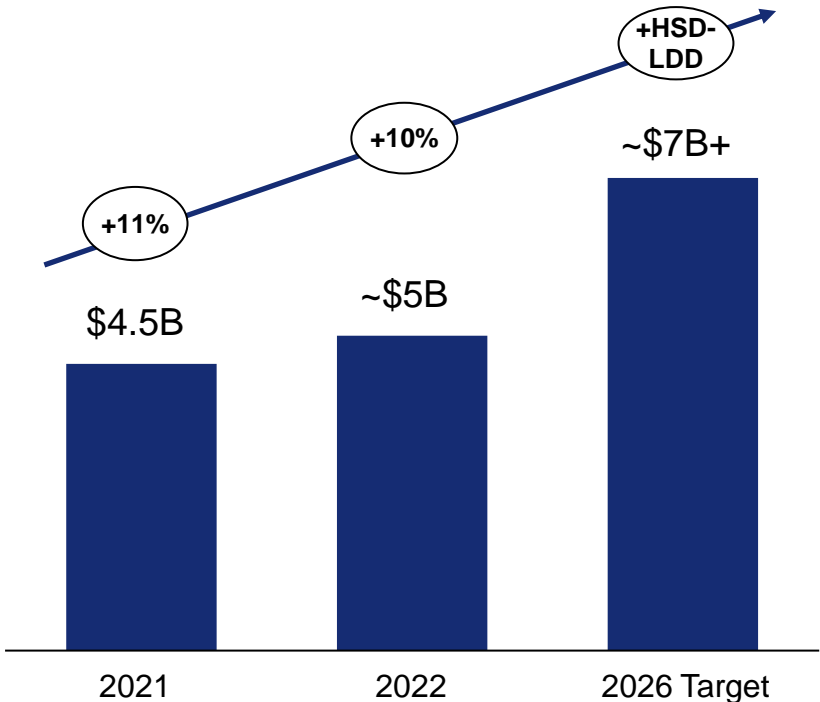

ESG Highlights and Recognitions:

- ✓ Committed to set greenhouse gas emissions reduction targets in line with a Science Based Targets initiative (SBTi) criteria
- ✓ Progressing our renewable energy strategy globally with onsite solar, green energy procurement and participation in renewable power purchase agreements
- ✓ Tracking to our scope 1, 2 and 3 commitments for 2030
- ✓ Won the Net Zero Hero Award for helping decarbonize the Citigen district heating energy centre in the city of London
- ✓ Sponsored World Cold Chain Symposium to promote action to create a sustainable global cold chain

Secular trends focused on sustainability and health and wellness are continued growth drivers

Digitally-Enabled Aftermarket Solutions

Aftermarket Sales

Aftermarket Highlights

Double-digit aftermarket growth

Over 1B square feet monitored by Abound

Continued customer interest and adoption of Lynx platform

~70K chillers under long-term agreements; expect another 10K in 2023

ABOUND

LYNX

Double-digit aftermarket growth; positioned to outpace the market going forward

Portfolio Optimization and Disciplined Capital Deployment

Portfolio Actions

Acquisitions

- Toshiba Carrier
- Giwee
- Nlyte, BrokerBay and Cavius

Divestitures

- Beijer ownership stake
- Chubb
- JV count reduced from 41 to 29

Improved Financial Strength

Significant Net Debt Reduction

Growing Dividend Payout

Increased Share Repurchase

M&A Priorities

- ✓ Enhance sustainability leadership
- ✓ Bolster building and cold chain ecosystems
- ✓ Accelerate digital and aftermarket growth
- ✓ Enhance technology differentiation and disruption
- ✓ Expand adjacencies and geographic coverage

Strong progress made; portfolio assessment and disciplined capital allocation to continue

Capital Allocation

2022 ending cash balance: ~\$3.5B; ~\$1.9B 2023 FCF* guide

- ✓ Capital expenditures expected to be ~\$400M in 2023
- ✓ Active and growing M&A pipeline; portfolio optimization to continue
- ✓ Increased dividend payment by over 20% to about 30% payout ratio
- ✓ ~\$2.2B remaining on share repurchase authorization; expect ~\$1.5B - \$2B in share buyback in 2023

Well-positioned to create shareholder value through strategic capital deployment

Summary

- Strong 2022 performance
- Targeting another strong year in 2023 despite an uncertain environment
- Balance sheet and portfolio optimization allows for further capital deployment opportunities

Global leader in healthy, safe, sustainable and intelligent building and cold chain solutions

APPENDIX

Use and Definitions of Non-GAAP Financial Measures

Carrier Global Corporation (“Carrier”) reports its financial results in accordance with accounting principles generally accepted in the United States (“GAAP”). We supplement the reporting of our financial information determined under GAAP with certain non-GAAP financial information. The non-GAAP information presented provides investors with additional useful information, but should not be considered in isolation or as substitutes for the related GAAP measures. Moreover, other companies may define non-GAAP measures differently, which limits the usefulness of these measures for comparisons with such other companies. We encourage investors to review our financial statements and publicly filed reports in their entirety and not to rely on any single financial measure. A reconciliation of the non-GAAP measures to the corresponding amounts prepared in accordance with GAAP appears in the tables in this Appendix. The tables provide additional information as to the items and amounts that have been excluded from the adjusted measures.

Organic sales, adjusted operating profit, adjusted operating margin, incremental margins / earnings conversion, earnings before interest, taxes and depreciation and amortization (“EBITDA”), adjusted EBITDA, adjusted net income, adjusted earnings per share (“EPS”), adjusted interest expense, net, adjusted effective tax rate and net debt are non-GAAP financial measures.

Organic sales represents consolidated net sales (a GAAP measure), excluding the impact of foreign currency translation, acquisitions and divestitures completed in the preceding twelve months and other significant items of a nonoperational nature (hereinafter referred to as “other significant items”). Adjusted operating profit represents operating profit (a GAAP measure), excluding restructuring costs, amortization of acquired intangibles and other significant items. Adjusted operating margin represents adjusted operating profit as a percentage of net sales (a GAAP measure). Incremental margins / earnings conversion represents the year-over-year change in adjusted operating profit divided by the year-over-year change in net sales. EBITDA represents net income attributable to common shareholders (a GAAP measure), adjusted for interest income and expense, income tax expense, and depreciation and amortization. Adjusted EBITDA represents EBITDA, as calculated above, excluding non-service pension benefit, non-controlling interest in subsidiaries’ earnings from operations, restructuring costs and other significant items. Adjusted net income represents net income attributable to common shareowners (a GAAP measure), excluding restructuring costs, amortization of acquired intangibles and other significant items. Adjusted EPS represents diluted earnings per share (a GAAP measure), excluding restructuring costs, amortization of acquired intangibles and other significant items. Adjusted interest expense, net represents interest expense (a GAAP measure) and interest income (a GAAP measure), net excluding other significant items. The adjusted effective tax rate represents the effective tax rate (a GAAP measure), excluding restructuring costs, amortization of acquired intangibles and other significant items. Net debt represents long-term debt (a GAAP measure) less cash and cash equivalents (a GAAP measure). For the business segments, when applicable, adjustments of operating profit and operating margins represent operating profit, excluding restructuring, amortization of acquired intangibles and other significant items.

Free cash flow is a non-GAAP financial measure that represents net cash flows provided by operating activities (a GAAP measure) less capital expenditures. Management believes free cash flow is a useful measure of liquidity and an additional basis for assessing Carrier’s ability to fund its activities, including the financing of acquisitions, debt service, repurchases of Carrier’s common stock and distribution of earnings to shareowners.

Orders are contractual commitments with customers to provide specified goods or services for an agreed upon price and may not be subject to penalty if cancelled.

When we provide our expectations for organic sales, adjusted operating profit, adjusted operating margin, adjusted interest expense, net, adjusted effective tax rate, incremental margins/earnings conversion, adjusted EPS and free cash flow on a forward-looking basis, a reconciliation of the differences between the non-GAAP expectations and the corresponding GAAP measures (expected net sales, operating profit, operating margin, interest expense, effective tax rate, incremental operating margin, diluted EPS and net cash flows provided by operating activities) generally is not available without unreasonable effort due to potentially high variability, complexity and low visibility as to the items that would be excluded from the GAAP measure in the relevant future period, such as unusual gains and losses, the ultimate outcome of pending litigation, fluctuations in foreign currency exchange rates, the impact and timing of potential acquisitions and divestitures, future restructuring costs, and other structural changes or their probable significance. The variability of the excluded items may have a significant, and potentially unpredictable, impact on our future GAAP results.

Additional Items

	2023 guidance
Shares outstanding (diluted)	~840M
Corporate expenses / eliminations	~\$200M
Adjusted interest expense, net*	~\$225M
Adjusted effective tax rate*	~23%
Non-service pension income / (expense)	~\$0M
Capital expenditures	~\$400M
Depreciation & amortization	~\$500M

<i>Adjusted operating margin</i>	9.6 %	12.1 %	14.5 %			10.1 %

(1) Beginning in Q3 2022, we exclude the impact of amortization of acquired intangibles from our non-GAAP financial measures including adjusted operating profit. Amortization of acquired intangibles, a non-cash expense, is unrelated to our core operating performance and amounts can vary significantly depending on the number, timing and size of acquisitions, among other factors. We believe this adjustment provides investors meaningful information to better evaluate our operating performance between periods. Historical periods have been updated to conform with the current period presentation.

(2) Amortization of the step-up to fair value of acquired inventory and backlog.

(3) The carrying value of our previously held TCC equity investments were recognized at fair value and subsequently adjusted.

Shares outstanding - Diluted	852.2		852.2	861.2		861.2
Earnings per share - Diluted	\$ 0.32		\$ 0.40	\$ 4.10		\$ 2.34

(1) Beginning in Q3 2022, we exclude the impact of amortization of acquired intangibles from our non-GAAP financial measures including adjusted operating profit, adjusted net income and adjusted EPS. Amortization of acquired intangibles, a non-cash expense, is unrelated to our core operating performance and amounts can vary significantly depending on the number, timing and size of acquisitions, among other factors. We believe this adjustment provides investors meaningful information to better evaluate our operating performance between periods. Historical periods have been updated to conform with the current period presentation.

(2) Amortization of the step-up to fair value of acquired inventory and backlog.

(3) The carrying value of our previously held TCC equity investments were recognized at fair value and subsequently adjusted.

(4) The Company repurchased approximately \$1.15 billion of aggregate principal senior notes on March 30, 2022 and recognized a net gain of \$33 million and wrote-off \$5 million of unamortized deferred financing costs in Interest (expense) income, net.

2021 EPS Reconciliation
